PROJECTS

News-Monks

- I conceptualized and developed a dynamic news website utilizing the powerful capabilities of the News API. This platform delivers real-time news updates from diverse sources, providing users with comprehensive coverage of current events across various topics.

Text-Converter

- Developed a fully functional text converter website designed to offer seamless and efficient text transformation services. This project involved the full spectrum of web development, from initial concept to deployment, demonstrating proficiency in both front-end and back-end technologies.
